

Project Proposal

INTRODUCTION TO ICT

Introduction

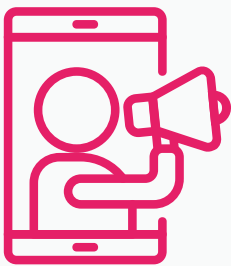

It is an innovative marketplace offering modern and viral products for consumers who love trends. It blends style, convenience, technology, and modern UI elements to create an efficient and enjoyable online shopping experience.

About TrendCart

TrendCart focuses on identifying market trends through social media, influencers, seasonal demand, and global shopping patterns. The website targets fashion-forward and trend-aware audiences by offering engaging and premium shopping experiences.

A modern e-commerce platform designed to sell the latest, trending, viral, and fashionable products sourced from reliable vendors. The goal is to provide a one-stop digital marketplace where customers can easily shop unique, in-demand items at competitive prices.

Content Strategy

01 Marketing

- Trending product display and categorized shopping
- User reviews and product ratings
- Search & filter system
- Wishlist and shopping cart
- Exclusive deals and discount banners

02 Design Style

- Clean, modern, minimal UI theme
- Blue-teal premium brand palette
- Smooth navigation and section layout
- Professional fonts and clean product presentation
- Mobile-friendly responsive layout

03 Visual Content

- Homepage with trendy product banners
- Product categories and detail pages
- Shopping cart & checkout page
- About, Contact, and FAQs pages
- Feedback & suggestions page
